

The South African Assembly

Land & Soil Jurisdiction

Come back onto the jurisdiction of the Land and Soil

The “acting South African Government” is a foreign owned and operated corporation and it wants to own you!

The current power structure is inverted, from a small number of people at the top holding all the power... when it should be **“We the People”** holding all the power, equally – where it belongs!

//
... we
need
YOU
to get
involved! //

- By completing the **528 documentation**, you “status correct” – giving you the opportunity to take back what is owed to you. These documents need to be published on our very own Land Recording Office.
- You notify home affairs that you are, in fact, a live man or woman, and that you are coming back to the jurisdiction of the Land and Soil. This brings you into the realm of “common law” where you have the right to self govern.
- You also have access to a **New Land Jurisdiction Bank** (*exclusively for ‘LIVE MEN AND WOMEN’ who have been status corrected*), where you can open an account, and where some of what you are owed, is paid back to you in American Federation Dollars (AFD) and prepaid credit - which is also owed to you (coming soon).
- By completing your **928 documentation**, you emancipate yourself from the governing corporation, and also allow yourself an opportunity to have a say in your own self governance, by getting involved with *The South African Assembly*.
