

Cease and Desist

Formal notice of non-recognition, trespass, crossing international borders, invasion; and request for documented accountability

Issued by: The South African Assembly (TSAA)

Concerning: The Olive Branch ASSEMBLIES and associated activities

1. Notice of non-recognition

The South African Assembly (TSAA) does not recognise The Olive Branch ASSEMBLIES as authorised to act as an Assembly on South Africa.

TSAA has received reports raising concerns about the group's formation, claimed authority, activities and affiliations. These matters require examination against verifiable records, with a fair opportunity for those concerned to respond.

TSAA is also concerned that activities on South Africa may have been promoted from outside South Africa by Tony Carroll **who is not South African**, not recorded on the LRO, **not situated in South Africa**, has not been in South Africa for a year and a day and/or is using South Africans and South African Nationals **to further his ambitions and goals on South African soil** and who, TSAA confirms, **is not acting under a mandate from TSAA GA**. Any proposal intended to affect the Assembly should be introduced through its established processes, considered by the appropriate committee and submitted to the General Assembly for consideration. No proposal should be presented in a way that **misrepresents its purpose** or directs the Assembly away from its stated objectives.

TSAA considers any unauthorised activity undertaken on South Africa in the name of an Assembly to be an **intrusion and trespass** on the self-governance of the people on South Africa. This is considered tantamount to what the Dutch East India Company and the British Crown have done in this country and considered an invasion. The circumstances have raised serious concerns about possible **interference and misrepresentation**. These are concerns requiring evidence and a response; this notice does not present them as established findings.

2. Assembly authority and accountable service

The position of Anna von Reitz, TSAA and Assemblies that TASA regards as valid is that Assembly authority, should arise through the participation **of the people concerned, properly conducted proceedings, and recorded decisions**. Those entrusted with office remain accountable to the people they serve.

Any claim of recognition, appointment or approval should identify the authority relied upon, the applicable procedure and the records demonstrating that the procedure was followed.

TSAA requests documentary evidence supporting The Olive Branch ASSEMBLIES' **claimed authority to:**

1. Act as an Assembly on South Africa.
2. **Establish or coordinate** county or local Assemblies.

3. **Establish or operate** a Land Recording Office.
4. Conduct Assembly-related activities **on South Africa** or elsewhere.
5. Collect or administer funds in the name of South African Nationals.
6. Rely on any authority said to permit these activities across national borders, including activities undertaken without TSAA's consent.

TSAA has not received any communication establishing that its status as the National/States Assembly has been revoked, superseded or otherwise invalidated, likewise with the valid Land Recording Office (est. 2024). TSAA therefore considers claims to the contrary to be unsubstantiated and **an act of trespass and invasion**.

TSAA requests that **Tony Carroll** identify the capacity in which he has acted, **the mandate he relies upon** and **any authority he claims to exercise** in relation to South Africa or its Assemblies. TSAA also asks him to identify any qualifications, standing or appointment he relies upon **to act internationally**, and the fully seated Assembly or other body said to have authorised that role.

TSAA is concerned that a person acting outside an Assembly's recorded processes may be presenting themselves as an international arbitrator or decision-maker.

Any assertion that Anna von Reitz approved these activities or displaced TSAA's standing **must be supported by her written communication**, together with the specific authority and procedure relied upon. Approval must not be assumed from informal statements or third-party assurances.

3. Matters requiring clarification

TSAA requests **written explanations** and **supporting records** concerning the following reported activities:

Tony Carroll: His involvement in forming, encouraging or promoting The Olive Branch ASSEMBLIES and the capacity and authority under which he acted.

Administrators associated with Tony Carroll: Their respective roles and any decisions, communications or actions concerning TSAA or the formation of The Olive Branch ASSEMBLIES.

Evelyn Harry (Eve): Her capacity on the **INAC Coordinators platform** and any involvement in the matters under review. Please **identify the process** by which Evelyn was added to that platform. **Evelyn Harry is not a coordinator of TSAA**. She is recorded as a South African State National (SASN), recording number 204680230. TSAA requests clarification of any involvement she may have had with The Olive Branch ASSEMBLIES, and whether that involvement was **authorised under TSAA's procedures**. TSAA would ask what influence Evelyn Harry currently has, and has had on INAC Coordinators **affecting South Africa and with whose authority**. Evelyn Harry's presence in INAC Coordinators is considered **impersonation and nepotism** and an explanation from **INAC Coordinators for allowing this impersonation and nepotism** is expected from INAC by TSAA.

Wildflower/Charissa Ruth: Relevant communications on Tony Talks Telegram channel concerning South Africa, including **private messages relating to questions relating to South Africa** and its National/State Assembly recognition, **lack of transparency**, and the appearance of a de facto secret society – all evidence has been recorded. Charissa Ruth is recorded as a TSAA SASN, recording number 813379614. TSAA requests clarification of any involvement she may have had with The Olive Branch ASSEMBLIES, and whether that involvement was **authorised under TSAA's procedures**. TSAA also request of Charissa Ruth to please be open and transparent and put her **"private messages" on the public platform for all to see**. This would void all suspicions of collusion.

The above-mentioned actions would be infiltrating a structured pillar and foundational processes getting the state up and running, **aiding and abetting a foreign trespass and invasion**.

TSAA is concerned that involvement by current TSAA members in activities undertaken **without a demonstrated mandate** could affect their lawful standing within TSAA and South Africa on the land and soil. Tony Carroll's assumed authority with The Olive Branch ASSEMBLIES is putting all SASN's at risk.

Deon Mostert: Tony Carroll is reported to have identified Deon Mostert as leading or spearheading The Olive Branch ASSEMBLIES. Please **clarify the role** Deon Mostert has undertaken, **who authorised it** and what records support that authority.

Posts by Tony and admins on Tony Talks Telegram channel:

- 23rd August 2026: *Supporting the International Assemblies is paramount to our Global mission and strategy.*

How does trespass and invasion in another country and the State Assembly constitute support?

Update 2: Business owners/vendors

- *Thanks for all those who reached out. We have compiled a database with all your details.*

This is considered as data harvesting of Nationals by trespass and invasion. All Nationals details are confidential and private and enticement and inveiglement by a foreign trespasser to obtain them is **a dishonourable tactic**.

- 20th August 2026: *If any of our Community want to record their land and soil marriage in South Africa, and NOT register it away to the Cabal, please DM myself or Eve to learn how to do this. We have the paperwork, process and people to make this happen for ye.*

Are Tony and Eve **presuming authority** over the valid and well established Land Recording Office on South Africa? Are Tony and Eve **presuming they have the sole authority to decide the processes** on South Africa?

Where activities are undertaken from outside South Africa, the persons concerned **should identify any mandate, invitation, consent or recorded agreement authorising their cross border involvement**. TSAA's position is that participation from abroad does not, by itself, confer authority to direct, replace or speak for The South African Assembly or South Africa.

TSAA also requests identification of any qualifications or authority relied upon to conduct **international Assembly-related business**, and evidence that the South African Assembly **was properly consulted** under the procedures being invoked and that the due processes via IBA, were honoured.

Kindly differentiate between the **Olive Branch Foundation** and **The Olive Branch ASSEMBLIES**. Is The Olive

4. Documentation requested

TSAA requests the following records re The Olive Branch ASSEMBLIES assumed authority, trespass and invasion on South Africa's land and soil:

- **Written authorisation**

Written authorisation from Anna von Reitz, if it exists, approving The Olive Branch ASSEMBLIES **trespass of assumed authority** on South Africa, together with the authority and procedure relied upon.

- **Assembly formation and proceedings**

Founding notices by The Olive Branch ASSEMBLIES, **invitations, agendas, minutes, resolutions** and **publication records** showing how The Olive Branch ASSEMBLIES was formed, **who participated** and which **procedures were followed**.

– **Elections and appointments**

Records concerning **eligibility, nominations, election notices, voting procedures, results, verification, appointments and affirmations of office.**

Full public records and participation to be provided.

– **Recording office and credentials**

The protocols relied upon; records establishing the Recording Office and identifying its officers; and the authority and procedures governing the issuance of Credential Cards. Why would The Olive Branch ASSEMBLIES usurp a fully established and functional Land Recording Office that has been serving South African Nationals since 2024? What is the intention behind that?

– **Approvals or decisions affecting TSAA**

Written evidence of any approval attributed to Anna von Reitz or another body, and any decision said to supersede TSAA. Please provide the decision's stated basis and evidence that TSAA was notified and given an opportunity to respond.

– **Full disclosure**

Full disclosure of The Olive Branch Foundation within the metes and bounds on the Southern African land and soil:

- The Olive Branch ASSEMBLIES
- The Olive Branch Healing Centers
- The Olive Branch Care Centers

And any other business/subsidiaries connected to The Olive Branch Foundation.

– **Financial accountability**

Public money = public accountability

A complete statement of funds received and held; itemised expenditure and disbursements; recipients, dates, amounts and purposes; supporting receipts and financial statements; and records approving the expenditure of the emergency funds.

Relevant records should be preserved. **Unnecessary personal or financial identifiers may be redacted,** provided the remaining information is sufficient for **verification.**

5. Fair review and TSAA's position

TSAA will assess any response and supporting records through a documented review process. Those concerned will have an opportunity to answer specific concerns and correct inaccuracies. **Anyone with a material conflict of interest** should not determine the findings.

Until that review is complete, TSAA maintains its position that The Olive Branch ASSEMBLIES **are not authorised Assemblies on South Africa, and are in trespass.**

TSAA considers The Olive Branch ASSEMBLIES' activities on South Africa to be **unauthorised and an invasion** into the self-governance of the people concerned. **TSAA does not consent to those activities** and hereby instructs The Olive Branch ASSEMBLIES to cease and desist from their trespass of **conducting Assembly activities on South African soil** with **immediate effect.**

TSAA will not accept unauthorised solicitation of contributions from its members without transparent authority and accountability.

The purpose of this notice is to **establish the facts** of The Olive Branch ASSEMBLIES trespass and invasion upon South Africa and its Nationals, **clarify the authority claimed**, **protect contributions** entrusted for stated purposes and **uphold accountable Assembly service**.

Public service requires integrity, transparency and accountability to the people served.
