Return to the Land and Soil: A Blueprint for Lawful Self-Determination

Decoding the jurisdictions of law, the anatomy of the legal fiction, and the structural path to status correction – via The South African Assembly.

The Three Jurisdictions of Law

The Hierarchy of Authority:
A River Does Not Rise Above Its Source

Inherent & Divine:
Laws of Maxim: Inalienable Rights
(Biblical, highest laws of the **land**)

The Sovereign & Agreements:
Sovereign (people mastering self),
Contract Law (offer + acceptance),
Treaties, Constitution

The Corporate Fiction:
Federal Codes, Corporation
(fictitious entities creating statutes),
Police Corporations
(private agencies),
Citizen
(a subject with privileges, not rights, pledged to the corporation)

The Genesis of the Corporate Trust

Context:
Humans are born on the Land and Soil, guaranteed inherent rights by Common Law.

The Bifurcation:
At birth, an artificial split is engineered. A Corporate Trust is created using the individual's name.

WATER & AIR JURISDICTIONS

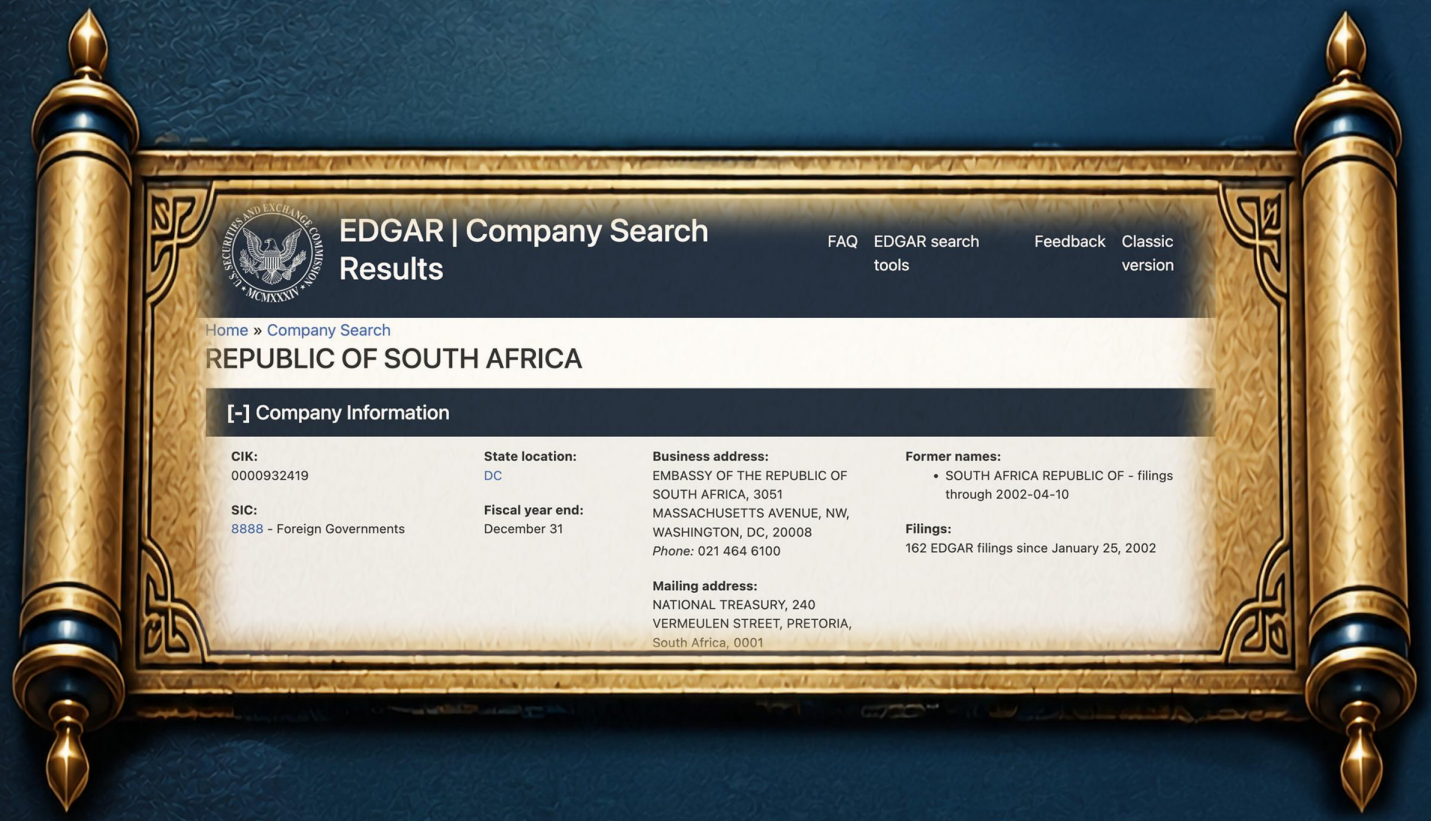

The Result:
This shadow entity is registered into the Water and Air jurisdictions. It allows the corporate government to interact with and control the living being through commercial law, fraudulent taxation, and licensing—stripping away inherent rights by conflating the living man with the paper fiction.

The Legislative Shift of 1949: How Status Was Redefined

Pre-1950 (British Subject)

Governed by the British Nationality Act 1914.

South Africans were imperial subjects under British sovereignty, not independent citizens.

Legal identity tied to the Crown.

Post-1950 (Statutory Citizen)

Governed by the South African Citizenship Act, 1949.

Created a distinct statutory citizenship.

Replaced inherent common law standing with corporate, statutory identity.

The Sovereign Goal (State National)

The TSAA objective.

Reclaiming birthright political status on the Land and Soil, operating outside the corporate parameters of the 1949 Act.

Decoding the Legal Fiction: A Tool, Not a Trick

A **legal fiction** (like a bank) is a deliberate assumption the law makes to function smoothly. It cannot breathe, but it can legally own property and be sued.

THE COMMON MISCONCEPTION

There is a separate corporate version of me created at birth that I can separate from to escape the law.

(Courts immediately dismiss this; you lose credibility).

THE LAWFUL REALITY

The law uses structured administrative identifiers (Name, ID number, birth records) to interact with a real, living human being.

You are the legal subject tied to those records. Understanding this allows you to assert rights effectively and navigate systems intelligently.

The Constitutional Authority for Assembly

The TSAA Alignment

Self-determination is not separation; it is the recognition of community authority within the unity of South Africa.

Authority is inherent in the people, not granted by the state.

The Assembly operationalises this right from the ground up.

The Mandate:

The right of communities within our borders to exercise self-determination in accordance with the Constitution.

The Four Pillars of Self-Governance

Land and Soil
De Jure Self-Governance model

Pillar 1: General Assembly

The foundational body of declared State Nationals who deliberate and make collective community decisions.

Pillar 2: Jural Assembly

The judicial function that operates the State Courts, interpreting and upholding Natural Law and community standards.

Pillar 3: Business Assembly

Manages international business operations and economic infrastructure for the state.

Pillar 4: Militia Assembly

The community-led mechanism for protection, ensuring local safety without reliance on corporate police agencies.

The Mechanics of Status Correction

Water Jurisdiction
(Statutory Law, Corporate Fiction)

Land & Soil Jurisdiction
(Common Law, State Nationals)

The Land Recording Office (LRO)

The Insight:
You cannot simply opt out of the Water jurisdiction by ignoring it; you must lawfully and administratively correct the public record.

The Mechanism:
The Land Recording Office acts as the bridge. By recording specific documentary evidence, an individual is reconveyed and permanently domiciled back onto the Land and Soil.

The Result:
Transitioning from a foreign Dual Citizen (a subject drowning in commercial contracts) into a fully actualised South African State National.

The Land Recording Office (LRO): Your Sovereign Archive

1. Create a secure profile & generate perfect documents.

2. Upload and record completed documentation.

3. Documents verified and published.

4. Official publication received via email.

Purpose: Provides secure storage and publication of recorded documents within the International Jurisdiction on the land and soil specifically for the free man or woman.

Core Function: Protects public and private data while issuing a unique recording number and timestamp for legal standing.

The Documentation of Emancipation

The 528 Recording (Status Correction)

The foundational document. Officially corrects the public record, serving notice that the individual is no longer operating merely as a corporate fiction or statutory citizen, but as a living being on the land.

The 928 Recording (Emancipation)

The supreme affirmation of sovereign status. A formal declaration severing presumed ties to the commercial jurisdiction of the Sea, affirming permanent domicile on the Land and Soil.

Together, these documents construct the Full Armour required to lawfully populate the *de jure* Government.

A United South Africa of Self-Determined Communities

The Vision:
This is our time. We the People are not lost at sea anymore, we are home.

The Action:
By returning home to the land and soil jurisdiction one by one, we populate the Assemblies and a *free, de jure* South Africa emerges.

Where there is unity, God commands a Blessing.
